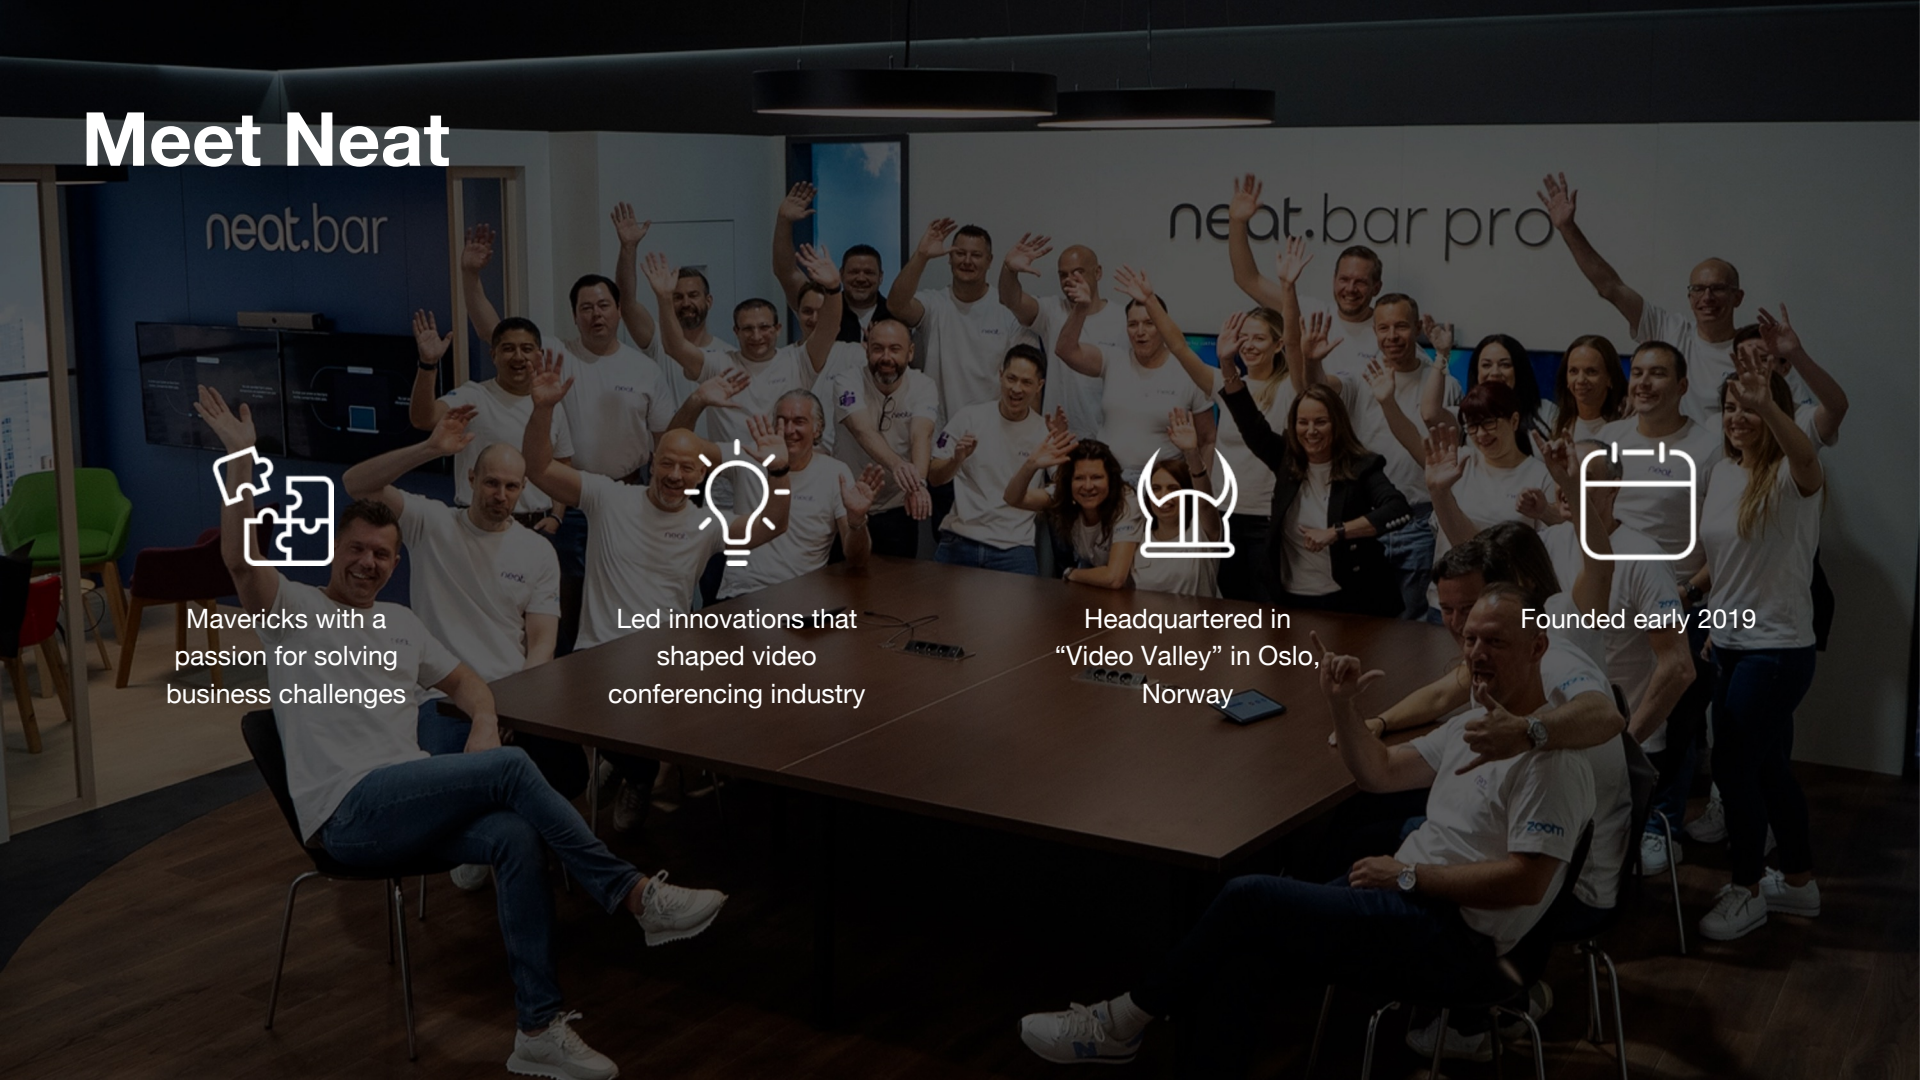
# Meet Neat



Mavericks with a passion for solving business challenges

Led innovations that shaped video conferencing industry

Headquartered in “Video Valley” in Oslo, Norway

Founded early 2019

Meet, create and collaborate better.

How we work and where we meet

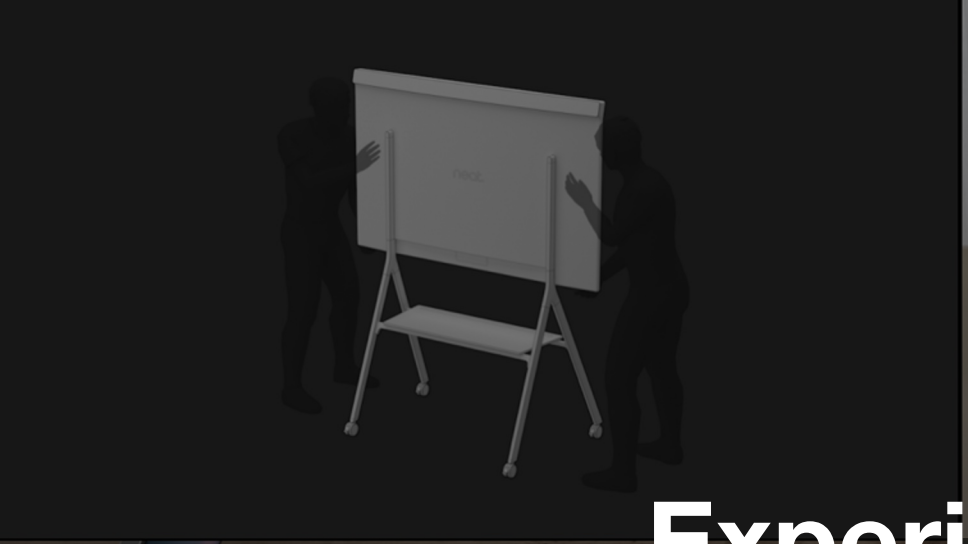
# being redefined

Being together.

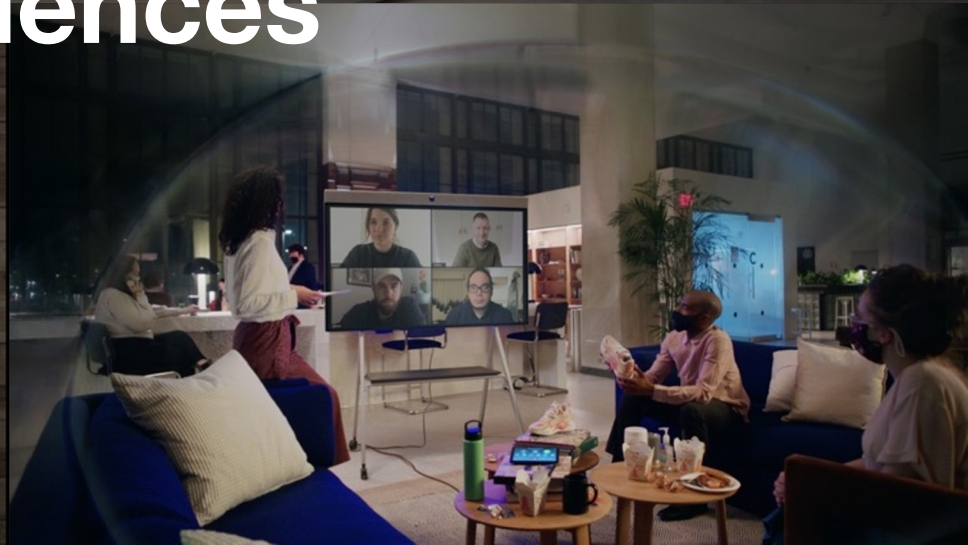
Spaces

Devices

Experiences



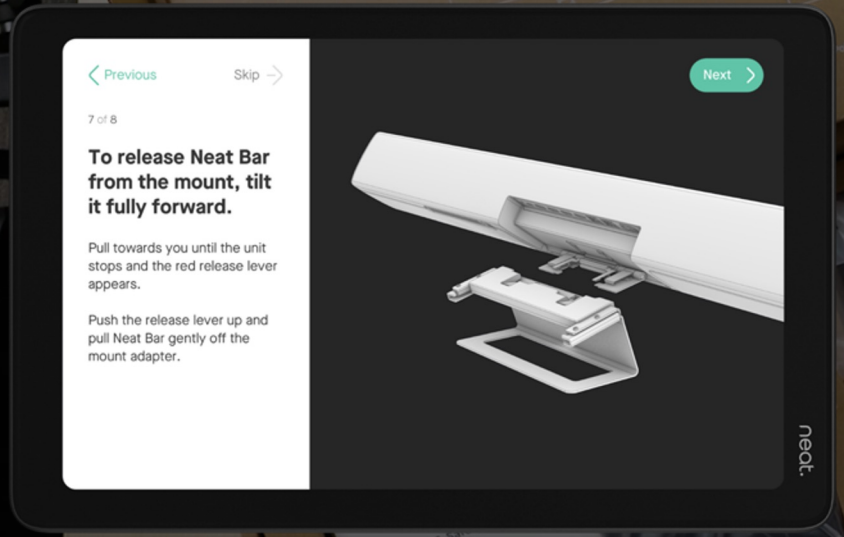
# Experiences



# Simple Setup

Everything to get your Neat device up and running fast is in the box.

Along with embarrassingly simple guided setup and installation instructions.



# Neat Symmetry

Provide meeting equity by bringing everyone closer.

Auto frame individuals in the room and automatically follow them as they move.

# Neat Audio

Advanced AI to enhance human voice pickup and filter out distracting noises like fans or keyboard clicking.

Double talk detection allows conversations to flow more naturally without interruption.

# Neat Sense

**Air quality** CO2, VOC, temperature and humidity.

**Microphones**
Ultrasonic people detection & background noise.

**Camera system**
People count, object recognition, depth sensing.

**Ambient Light Sensor**
Lighting conditions.

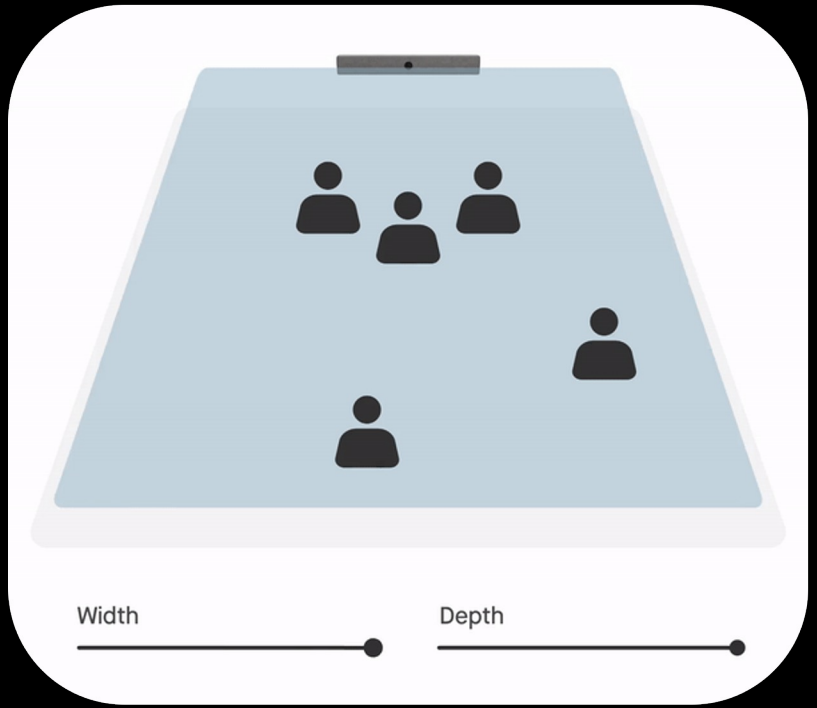
**Accelerometer**
Simplify installation, optimize eye contact.

Neat Sense data available with Zoom only

# Neat Boundary

For rooms with glass walls or open spaces, set boundaries for auto framing people.

Avoid focusing on individuals outside of your designated meeting space.



# BYOD Mode
(USB Passthrough)

Use Neat’s hardware and features with virtually any video meeting platform.

All you need is an HDMI and USB-C cable.

Devices
